

# PROJECT PROFILE

HERB CHAMBERS JAGUAR LAND ROVER - ECOMAXCI® FR PLY

## PROJECT DESCRIPTION

Herb Chambers Jaguar Land Rover is a state-of-the-art dealership located on Commonwealth Avenue, a major street in Boston. This four-story, nearly 200,000sf building will include showrooms, office space, service bays, vehicle storage, and customer amenity space, including lounges.

Rmax /FSA worked with Sweeney Drywall to familiarize them with ECOMAXci® FR Ply.

### ECOMAXCI® FR PLY

Fire Resistant Insulation for Cladding Attachments in Exterior Walls

Rmax ECOMAXci® FR Ply is a Class A energy-efficient thermal insulation board composed of a closed-cell polyisocyanurate (polyiso) foam core with glass fiber reinforced aluminum facers on both sides bonded to 5/8" or 3/4" fire retardant treated plywood.

ECOMAXci® FR Ply has been tested per NFPA 285 and successfully passed. The NFPA 285 listing/approval is dependent on all components of the assembly. Third party evaluations and listings should also be consulted for specific instructions.
