

PROJECT PROFILE

AC MARRIOTT BRENTWOOD, TENNESSEE
STEEL STUD WALL ASSEMBLY - ECOMAXCI® FR & - ECOMAXCI® FR PLY

PROJECT DESCRIPTION

The AC Marriott, located in the Hill Center at Maryland Farms in Brentwood TN, officially opened September 2021 and offers 148 guest rooms, co-working spaces, more than 2,000 square feet of event space, and multiple beverage and food options on its four levels, including a rooftop lounge accessible to the public.

The Architect on this project, Goodwyn, Mills and Caywood Inc. used Rmax ECOMAXci FR and ECOMAXci FR Air Barrier products over the entire project to allow seamless installation of a variety of exterior facades. With the help of our in-house architect and field team we were able to help Goodwyn, Mills and Caywood Inc. incorporate our system with their design needs to complete this project smoothly.
