

PROJECT PROFILE

BIG LOTS DISTRIBUTION CENTER, APPLE VALLEY CALIFORNIA

PROJECT DESCRIPTION

Big Lots Distribution Center Making Fast Progress – Up To 500 New Jobs Anticipated for the High Desert, Apple Valley, CA. Construction of the Big Lots Distribution Center in Apple Valley, CA is progressing quickly!

It is an incredible project and photos hardly do justice to portray the massive size – 1.4 Million Square Feet – of this new facility! The proposed 106.5 acre parcel to accommodate a 1,360,875 sq. ft. distribution center and associated ancillary facilities. The distribution warehouse will consist of a single, 45 foot high building consisting of primarily of warehouse space. Ancillary office space, including administration, shipping and receiving offices, are included in the building envelope. An estimated 500 new jobs will be provided to the High Desert, filling a significant need in the region.

This 1,340,900 square foot facility uses automated systems to receive, prepare, load, and ship merchandise to Big Lots all over the southwest.
